

TRANSFORM YOUR DATA CENTER TO ACHIEVE BUSINESS AGILITY WITH CITRIX AND CISCO

Citrix Application Delivery Controller (ADC) and Cisco Application Centric Infrastructure (ACI)

Amazing things happen when two industry leaders combine their talents into one integrated solution. Together, Citrix ADC and Cisco ACI solve a data center's most pressing infrastructure and network management problems by providing a solution that integrates L4-L7 load balancing, alleviates overhead and sprawl, scales as demand fluctuates, and ensures future compatibility in competitive business environments. All the while providing industry-unique, application-focused visibility and the essential security analytics you require. Together, Citrix and Cisco deliver a secure, agile, and scalable environment backed by the quality, reputation, and support of industry standards Citrix ADC and Cisco ACI.

SECURITY

80%

of companies surveyed had been victims of a successful cyberattack or breach in the previous year¹

27.4%

annual increase in data breaches²

Implement comprehensive security and ensure compliance with industry standards using native Cisco ACI security with Citrix ADC security services.

DEFEND YOUR BUSINESS

PROTECT YOUR USERS

MAINTAIN COMPLIANCE

EVIDENCE

Citrix and Cisco support this international logistics firm in protecting its data. Under recently introduced regulations, all U.S. Department of Defense contractors must meet stricter requirements for the security of Controlled Unclassified Information or risk losing their contract.

"Citrix and Cisco give us compliance, security, and scalability."

Nishar Kanakkayil, Head of IT Infrastructure, ANHAM FZCO³

AGILITY

62%

of CIOs surveyed cited driving business innovation as a strategic focus for 2018⁶

69%

of CIOs surveyed have, or expect to implement, intelligent automation within IT⁴

Rapidly address business changes with infrastructure management tools that feature uncompromising integration between Citrix ADC and Cisco ACI. Ensure smooth operations for hybrid multi-cloud deployments and seamless cloud orchestration.

IMPROVE SYSTEM RELIABILITY

EASILY ADAPT TO CHANGE

DEPLOY QUICKLY

5x
MORE SPEED

EVIDENCE

Nonprofit healthcare organization grew infrastructure and services by 50% without increasing staff or cost; increased IT performance with greater reliability and as much as 5x more speed.⁵

SCALABILITY

Top 3 operational priorities cited by nearly 4,000 IT respondents:

01

Improving business process

02

Delivering stable IT

03

Increasing operational efficiencies⁴

Optimize Assets

Enhance Performance

Reduce Costs

64%

of CIOs said that innovation will be a high priority over the next 3 years⁶

10x

EVIDENCE
